DIRECTORS INSTRUCTIONS FOR BRIDGE CREDITS PILOT (NEW OCT 2026)

There are two additional steps that the Assistant Director needs to complete:

BEFORE YOU PLAY

1. **When you have checked the Names that have been Imported from the Bridgemates and before you set the Timer and Go and Play, perhaps while the boards are distributed :**
   Click the button "Export Names to MyABF" at the bottom of the screen under all the listed names.
   This creates a Names file which will be loaded to MYABF later, for the purpose of charging and reconciling Bridge Credits.

AFTER YOU PLAY

2. **When you have uploaded the Results File to MyABF, while you are still in MyABF Club Admin, the MyABFNames file that you created in Step 1 above needs to be uploaded to MyABF as well.**

   - Go to **Sessions** on the menu bar
   - Click the Button "**New Session**"
   - Select COMSCORE3(CSV)

   Navigate to C:\Compscore3\Web\XML Files

   Double Click today's MYABF Names file (**ensure it is the one created with today's date**) (.XML file)

When the Pop-Ups message appears Select IGNORE

- Close MYABF.

THAT"S IT.

Thanks for assisting in this Pilot. Feedback will be sought from you at the end of the Pilot in January 2027, so keep any issues in mind.

If you have any problems, please seek help from Linda Clayton.
